Black & Gold

The black color symbolizes wealth, mystery, power, elegance, intelligence, severity, mourning, death and being unknown. People who are interested in this color are serious, unattainable, wealthy, successful, self-confident, independent, selfish and egocentric.

The golden color is a symbol of success, wealth, reliability, kindness, generosity and power. By combining these two colors, we have reached to what they have in common. What every manager looks for: success, wealth and power.

FAST COLLECTION

Through research and experience worldwide we have combined technical performance with the elegance in producing modern office furniture. We solve practical workplace needs with a comprehensive product portfolio that responds to individual workstyles and supports organizational goals.

Water Retainer

We at Water&Soil believe we found a revolutionary answer for drought and dehydration. For agriculture and small gardens. For California, thirsty Africa or the dry Middle East. We don't create water, or make it rain. But we can protect what we have. We can put it to work. And that way, we can unlock the potential that falls on, or is already hidden under ground.
